INCORPORATION.

It will be seen by reference to our Toronto promoting the bill of incorporation of Rat Portage as a town, has been approached in reference to conditions respecting the Tunnel island-water power and union with Keewatin, THE RECORD decidedly approves of his action in agreeing to exempt the water power from taxation, and heartily endorses any move that may be made for amicable union with Keewatin. It is to be regretted that action was not taken sooner in order that such proposed union could have had full consider. union could have had full consider-niting, and have been carried through with the bill of incorporation. It is gratifying to find that the bill is not neeting with the officiation that was feared, runners as to which were referred to in our issun of last, week. Pressure of business pre-vents us fully discussing these mat-ters this week, but we will do so in our next.

NEWSPAPER ETHICS.

The following on newspaper ethics is peculiarly applicable at the present time to the concern down street. It might be considered adstreet. It might be considered act-orously personal if the idea origin-ated with us, but it will not be taken that way when the source is remem-hered to be, so highly a respected and widely cultivated journal as the Detroit Free Press, We only make the local application.—

"A nowspapen; says Goorge William Curtis, in Harpor, gains neither character nor influence by ubandoning good manners. It may, indeed, make itself disagreeable and annoymake itself disagreeable and annoying and so silerice opposition, as a polecat may effectually close the wood path which you have designed to take. It may be fewed, and in the same way as that animal—feared and despised. But this effect must not be confounded with newspaper power and influence. It is exceedingly annoying, undoubtedly, to be placarded all over town as a linr or a donkey, a hypocrite or a smook thick. But although the effect is most unpleasant, very, little ability is required to produce it. A little paper and printing. a little

ability is required to produce it. A little paper and printing. a little paste, agret dead of malico, a host of bill stickers are all that are needed, and even—the pecuniary cost is not large. The effect is produced, but it does not show ability or force or influence upon—the part of its producer.—Detroit Free Press.

"M. Quad" is an acknowledged genius, and his specialty "the Arizona Kicker," is very widely read and published. His column appearing in the Free Press within a week, contains the following, which is a very accented description of the News, and which would indicate in intimate acquamtance with that wonderful sheet; "A Sad Dury.—Our subscribers

"A San-Dury,—Our subscribers, will bear witness that we have never mentioned our contemporary, when we sould possibly avoid it. We have no quarrel with him. He fines an alleged weekly paper which has 490 elescribers, including dead, heads. He can neither shot nor edit. He ought to have come here and started a small cooper shop. We never think of him without a feeling of pity, and have always stood ready to lend him our eard auties or furnish him with enough old patent medicine outs to fill up

Mill men seem to be a source of trouble to the New ly thinks they are a dangerous class in the community. Its atterances from time to time would indicate from time to time would indicate that the one great-possibility to be feated is that the mill men may have some say in the government of the town. Rat Portage has not suffered in the past from the actions of the mill men, in fact without them and the railroad men, the place would not amount to much. Who has a better right to a voice in our public affairs than those who make a large portion of the business of the town?

-The skating race last night was won by Jos. Perrault, who is now the champion of the district. It had been postponed from Tuesday night to suit Mr. Migley, but he backed out at the last moment, when backed out at the last moment, when the race was called claiming that his feet were sore, having been scalded in practice. The five miles were made by Perranti in twenty minutes. At the conclusion of the race, a voluntary collection of \$11 was made toward a medal for George Dulmage, who also made splendid time.

Norman, March 1st To the Editor of Tuz Record

Sir,—As a true born Scotchman I can see no reason why we should not bare a branch of the St. An-drew's Society in our midst. We have drew's Society in our miest. We have been visited from time to time by the Society from Winniper. We have the representitives of nearly and I the claus amongst us in name, and I have no doubt that if the matter was fairly brought before the matter was mary prought before the minds of Scotchimen and their desendants that in a very short time we would have a strong society in Rat Portage, and would be in a position to receive the Winnings So. sition to receive the Winnings So-ciety on its next annual-visit. If you will kindly find a corner in The Record for this, perhaps it may be the means of leading to a meeting

-There is published evidence of There is published evidence of terrible excitoment dawn at the News office. The trouble was so hot that it boiled over in a most contemptible attack upon a highly respected citizen, Mr. P. H. Clark, in reference to the printing of a small job for the municipality. Its statement as to the offers for printing the collector's notices is of the An-anias order. Written tenders were the confector's notices is of the An-anias order. Written tenders were not put in, but verbal offers were given from the News and Records offices, and ours was twenty-five cents tess (not more) that theirs. That is the plain fact as stated by Mr. Clark, and the people of Rat Portage will have no hesitation in taking his word before that of the chouse, which will be 35x50 editor of the News. The Recond made the native of conductors and brakes the native of conductors and brakes the native of conductors and brakes the native of the native of the native of the native of the native principality in reference editor of the News. As to the sonal attack upon any of the officials of the municipality in reference thereto. This office does what printing comes to it, and does not get excited if the News gets a flutch eccasionally. It may or it may not be a matter of surprise that the News should become so greatly exercised over a matter of printing, the price of which will not be more than \$8. Since that paper has raised the question of municipal printing. Turk Recomb proposes next week to show how that concern has extured money from the people of Rat. Portage for printing in the past.

lightfully cool in warm weather.

The Hilliard House is so complete in every way to meet the requirements of tourists, it stands second to none in the Dominion.

Those, who wish for health, combined with the sight of the beautiful, should come to Rat Portage. It can be said by those, who have visited the Lake of the Woods: "Mine eyes behold now pleasures while the landscape round it measures," and the breezes of the lake combined with the fragrance of the the pine lend their kindly libelinger to the reinvigorating of our system.

Mr. Hilliard has made arrangements with the proprietor of the steemer Kennina to furnish tickets to guests for excursions on the lake at the low rate of fifty cents per day.

Dr. Clark's White Liniment

The Great Stable and Household Remedy.

The Creat Stable and Household Remedy.

HORSEMEN ATTENTION!

Horsemen throughout the country have long felt the 'weed of a first-class' Stable Joiniment upplicable to the thousand and one external derangements incident to horselfest. The various preparations on the market are in some cases useful within a very limited sphere, some for sparins, some for galls, some for pulls, others for sprains, and so on all libitum, and if a farmer or rancher would need to keep a small apotheory shop on his premises to meet the various requirements of even a small band of shoress. In addition, to this there is the trouble and expense of renewing supply, as other preparations are usually part up in such small bottles that im-most esses one bottle is good only for one application.

Dr. Clant's White Limisext is dissipating all these difficulties. It is the most important departure in recent years in the interest of menants, and economical, voterinary treatment. It has been found useful in a greater variety of disorders and blumishes than any other liminent ever sold; it has been preved of greater service-io large house owners than any other inorse mollising of the century. It is not a deastic, flesh-withering hister, but a penetrating, soothing, healing liminent: It is put up in pit bottles, and sold at 50 cents per bottle. It is six times as large as most timinents: on-the-inskef, far niore reliable and wastly more economical. For pulla, sprains, strains, spavins, wunds, collar galls and soddle galls, it will be found a remody par excellence. Here swelled legt it is a specific, also for sprains, and reconclaments.

Horsement in all pairs sing its praise. Tostimonials pour in from all quarters. We hay not roofon, in this brief skelet to reproduce the opinious of the hundreds who have written us. We can only give the gist of their remarks and blattone but a few.
